

## **For - Draft: EirGrid 2024 Annual Innovation Report | EirGrid Consultation Portal**

### **The consultation**

EirGrid and SONI published the 2024 Annual Innovation Report for consultation. The report captured the projects that progressed during the 2024 calendar year, as well as the future potential for these projects.

### **Your views and suggestions**

EirGrid and SONI requested responses to consultation on the following questions by the 12th of March 2025.

Do you agree with the proposed future potential for projects that are ongoing or initiated? Are there any additional considerations EirGrid and SONI should make in their plans for next steps?

For completed projects are there any additional steps you believe EirGrid and SONI should be pursuing?

Do you have any suggestions for additional projects EirGrid and SONI should be pursuing?

Do you have suggestions towards the use operation and risks associated with open data spaces?

Do you agree with EirGrid and SONI's decision to focus on trialling artificial intelligence and machine learning applications?

Are there any applications of artificial intelligence or machine learning that you feel would be of benefit to EirGrid and SONI?

Do you agree that new Evidence Based Environmental Guidelines by EirGrid are required to drive sustainability heritage protection and nature restoration during accelerated grid delivery?

Do you agree with the scope of EirGrid's preferred Option (No. 4)?

Please provide any specific comments or identify any potential priorities for EirGrid in terms of specific environmental impacts and or uncertainty regarding grid delivery and operation

### **Outcomes**

Please see 2024 Annual Innovation Report linked below.
